Wireless Nurse Calling System

This is a perfect product for hospitals and clinics for attendant or nurse calling. On press of CALL button from patient's room, the room number is lit up at the central display via wireless link. The Reset button when pressed will switch off the number from the display unit. No wiring required from each room to the central display nurse control station.

Wall unit for CALL and RESET is available with a hanging cord switch that can be kept near the patient's bed. Regular remote with CALL facility is also available in which the RESET option is on the display screen.

Features:

- Power supply for central display – 240 V, 50 Hz AC
- Size of central display – 300 mm x 95 mm x 58 mm (for 8 room display)
- Size of each digit – 1.25"
- Battery for remote – 12V DC

Wall unit is operated with a power adapter.

- Available for 8, 12, 16, 24 rooms (size can increase as number of rooms goes up)
